

## TMT SIZING MACHINE W:2400 "WR 1000 QUEEN" YOC 2008

Designed for the most delicate fibres like wool or filaments, works on sectional warp beam and front headstock with master beam winder, the beam-to-beam system may run bi-directionally.

Exclusive new vertical sizing module uses tangential applicators and two leveller/impregnator cylinders plus the infrared oven and drums dryer.

This machinery is based on the innovative Tangential Sizing Technology.

- . AUTOMATIC BEAM UNWINDER
- . TANGENTIAL SIZING BOX
- . INFRARED PRE-DRYER.
- . DRYIER DRUM BATTERY
- . AUTOMATIC DIRECT WINDER
- . SIZE KITCHEN & STORAGE

- . MAX W: 2400MM.
- . SIZING BOX: TRIM DN2
- . IR OVEN: YES
- . DRYING DRUMS: 2-4
- . FEEDING: SECTIONAL MOTORIZED
- . HEADSTOCK: DIRECT WINDER
- . SPEED: 50 MT/MIN
- . DIMENSION: 11.800x3.300MM

STATUS: WORKING
